### SSL/TLS

#### SSLv3/POODLE

This site does not support the SSL version 3 protocol.

[More information about SSL version 3 and the POODLE vulnerability.](#)

#### Heartbleed

The site did not offer the Heartbeat TLS extension prior to the Heartbleed disclosure, and so was not exploitable.

This test does not exploit the Heartbleed vulnerability but uses information from conventional HTTPS requests.  
[More information about Heartbleed detection.](#)

### Sender Policy Framework

A host's Sender Policy Framework (SPF) describes who can send mail on its behalf. This is done by publishing an SPF record containing a series of [rules](#). Each rule consists of a qualifier followed by a specification of which domains to apply this qualifier to. For more information please see [openspf.org](#).

Warning: It appears that this host does not have an SPF record. Setting up an SPF record helps prevent the delivery of forged emails from your domain.

### DMARC

DMARC (Domain-based Message Authentication, Reporting and Conformance) is a mechanism for domain owners to indicate how mail purporting to originate from their domain should be authenticated. It builds on SPF and DKIM, providing a method to set policy and to give reporting of failures. For more information please see [dmarc.org](#).

This host does not have a DMARC record.

### Web Trackers

Web Trackers are third-party resources loaded onto a webpage. Trackable resources include social sharing widgets, javascript files, and images. These trackers can be used to monitor individual user behaviour across the web. Data derived from these trackers are primarily used for advertising or analytics purposes.

**2 known trackers were identified.**

Site Technology

Fetches on 4th July 2019

Cloud & PaaS

Cloud computing is the use of computing resources (hardware and software) that are delivered as a service over a network (typically the Internet). Platform as a service (PaaS) is a category of cloud computing services that provide a computing platform and a solution stack as a service.

Technology	Description	Popular sites using this technology
<b>Amazon Web Services - CloudFront</b> 	Amazon Content Delivery Network	<a href="http://login.kataweb.it">login.kataweb.it</a> , <a href="http://static.vilynx.com">static.vilynx.com</a> , <a href="http://amazon.com">amazon.com</a>

Server-Side

Includes all the main technologies that Netcraft detects as running on the server such as PHP.

Technology	Description	Popular sites using this technology
<b>SSL</b> 	A cryptographic protocol providing communication security over the Internet	<a href="http://kayakoreport.hostasaurus.com">kayakoreport.hostasaurus.com</a>

Client-Side

Includes all the main technologies that run on the browser (such as JavaScript and Adobe Flash).

Technology	Description	Popular sites using this technology
<b>Local Storage</b>	No description	<a href="http://www.hbg.com">www.hbg.com</a> , <a href="http://www.digikala.com">www.digikala.com</a> , <a href="http://www.espnricinfo.com">www.espnricinfo.com</a>

Technology	Description	Popular sites using this technology
Image Map	No description	<a href="#">www.dailymail.co.uk</a> , <a href="#">www.meteofrance.com</a> , <a href="#">www.meteociel.fr</a>
JavaScript 	Widely-supported programming language commonly used to power client-side dynamic content on websites	<a href="#">vdms-ssl.cedexis-test.com</a>

Client-Side Scripting Frameworks

Frameworks or libraries allow for easier development of applications by providing an Application Program Interface (API) or a methodology to follow whilst developing.

Technology	Description	Popular sites using this technology
AJAX	No description	<a href="#">www.walmart.com</a> , <a href="#">www.capitalone.com</a> , <a href="#">www.w3schools.com</a>
jQuery 	A JavaScript library used to simplify the client-side scripting of HTML	<a href="#">www.cisco.com</a> , <a href="#">www.sdna.gr</a> , <a href="#">openload.co</a>

Content Delivery Network

A content delivery network or content distribution network (CDN) is a large distributed system of servers deployed in multiple data centers in the Internet. The goal of a CDN is to serve content to end-users with high availability and high performance.

Technology	Description	Popular sites using this technology
Cloudfront	No description	<a href="#">www.binance.com</a> , <a href="#">www.primevideo.com</a> , <a href="#">aws.amazon.com</a>

Web Stats

Web analytics is the measurement, collection, analysis and reporting of internet data for purposes of understanding and optimizing web usage.

Technology	Description	Popular sites using this technology
Google Webmaster Tools 	Set of tools allowing webmasters to check indexing status and optimize visibility of their websites on Google	<a href="#">www.bankofamerica.com</a>

Character Encoding

A character encoding system consists of a code that pairs each character from a given repertoire with something else such as a bit pattern, sequence of natural numbers, octets, or electrical pulses in order to facilitate the transmission of data (generally numbers or text) through telecommunication networks or for data storage.

Technology	Description	Popular sites using this technology
UTF8 	UCS Transformation Format 8 bit	<a href="#">gmail.com</a>

HTTP Compression

HTTP compression is a capability that can be built into web servers and web clients to make better use of available bandwidth, and provide greater transmission speeds between both.

Technology	Description	Popular sites using this technology
Gzip Content Encoding 	Gzip HTTP Compression protocol	<a href="#">www.programme-tv.net</a> , <a href="#">www.amazon.fr</a> , <a href="#">www.expedia.com</a>

Web Browser Targeting

Web browser targeting enables software applications to make use of specific functions of the browser as well as optimizing the application for specific browser versions.

Technology	Description	Popular sites using this technology
<b>Document Compatibility Mode</b> 	A meta-tag used in Internet Explorer 8 to enable compatibility mode	<a href="http://www.coinbase.com">www.coinbase.com</a> , <a href="mailto:outlook.office365.com">outlook.office365.com</a> , <a href="http://yandex.ru">yandex.ru</a>
