Sender Policy Framework

A host's Sender Policy Framework (SPF) describes who can send mail on its behalf. This is done by publishing an SPF record containing a series of [rules](#). Each rule consists of a qualifier followed by a specification of which domains to apply this qualifier to. For more information please see [openspf.org](#).

Warning: It appears that this host does not have an SPF record. Setting up an SPF record helps prevent the delivery of forged emails from your domain.

DMARC

DMARC (Domain-based Message Authentication, Reporting and Conformance) is a mechanism for domain owners to indicate how mail purporting to originate from their domain should be authenticated. It builds on SPF and DKIM, providing a method to set policy and to give reporting of failures. For more information please see [dmarc.org](https://dmarc.org).

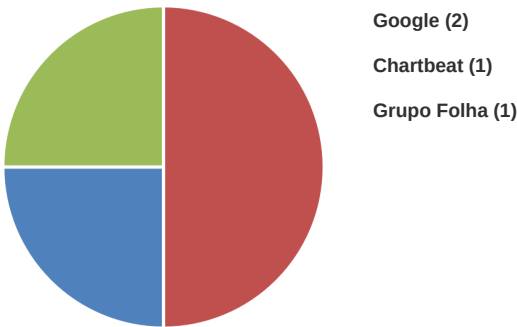

This host does not have a DMARC record.

Web Trackers

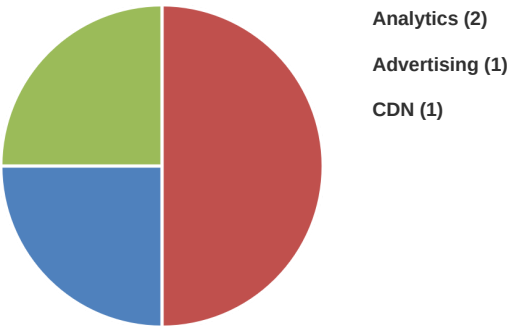

Web Trackers are third-party resources loaded onto a webpage. Trackable resources include social sharing widgets, javascript files, and images. These trackers can be used to monitor individual user behaviour across the web. Data derived from these trackers are primarily used for advertising or analytics purposes.

4 known trackers were identified.

Site Technology

Fetches on 26th June 2019

Cloud & PaaS

Cloud computing is the use of computing resources (hardware and software) that are delivered as a service over a network (typically the Internet). Platform as a service (PaaS) is a category of cloud computing services that provide a computing platform and a solution stack as a service.

Technology	Description	Popular sites using this technology
<b>Amazon Web Services - CloudFront</b> 	Amazon Content Delivery Network	<a href="https://login.kataweb.it">login.kataweb.it</a> , <a href="https://static.vilynx.com">static.vilynx.com</a> , <a href="https://smile.amazon.com">smile.amazon.com</a>

## Server-Side

Includes all the main technologies that Netcraft detects as running on the server such as PHP.

Technology	Description	Popular sites using this technology
<b>SSL</b> 	A cryptographic protocol providing communication security over the Internet	<a href="https://kayakoreport.hostasaurus.com">kayakoreport.hostasaurus.com</a> , <a href="https://docs.microsoft.com">docs.microsoft.com</a> , <a href="https://login.salesforce.com">login.salesforce.com</a>

## Client-Side

Includes all the main technologies that run on the browser (such as JavaScript and Adobe Flash).

Technology	Description	Popular sites using this technology
<b>JavaScript</b> 	Widely-supported programming language commonly used to power client-side dynamic content on websites	<a href="https://www.google.com">www.google.com</a> , <a href="https://www.facebook.com">www.facebook.com</a> , <a href="https://accounts.google.com">accounts.google.com</a>

## Advertising Networks

An online advertising network or ad network is a company that connects advertisers to web sites that want to host advertisements.

Technology	Description	Popular sites using this technology
<b>DoubleClick</b> 	Internet advertising service provided by Google	<a href="https://www.okcupid.com">www.okcupid.com</a> , <a href="https://www.nicehash.com">www.nicehash.com</a> , <a href="https://www.imdb.com">www.imdb.com</a>

## Content Delivery Network

A content delivery network or content distribution network (CDN) is a large distributed system of servers deployed in multiple data centers in the Internet. The goal of a CDN is to serve content to end-users with high availability and high performance.

Technology	Description	Popular sites using this technology
<b>Cloudfront</b>	<i>No description</i>	<a href="https://www.binance.com">www.binance.com</a> , <a href="https://www.primevideo.com">www.primevideo.com</a> , <a href="https://gfycat.com">gfycat.com</a>

## Character Encoding

A character encoding system consists of a code that pairs each character from a given repertoire with something else such as a bit pattern, sequence of natural numbers, octets, or electrical pulses in order to facilitate the transmission of data (generally numbers or text) through telecommunication networks or for data storage.

Technology	Description	Popular sites using this technology
<b>UTF8</b> 	UCS Transformation Format 8 bit	<a href="https://gmail.com">gmail.com</a> , <a href="https://secure-assets.rubiconproject.com">secure-assets.rubiconproject.com</a>

## HTTP Compression

HTTP compression is a capability that can be built into web servers and web clients to make better use of available bandwidth, and provide greater transmission speeds between both.

Technology	Description	Popular sites using this technology
