Sender Policy Framework

A host's Sender Policy Framework (SPF) describes who can send mail on its behalf. This is done by publishing an SPF record containing a series of [rules](#). Each rule consists of a qualifier followed by a specification of which domains to apply this qualifier to. For more information please see [openspf.org](#).

Qualifier	Mechanism	Argument
- (Fail)	all	

Modifiers extend the functionality of SPF records. The most common one is the redirect which indicates another host contains the SPF record being searched for.

Modifier	Argument
----------	----------

DMARC

DMARC (Domain-based Message Authentication, Reporting and Conformance) is a mechanism for domain owners to indicate how mail purporting to originate from their domain should be authenticated. It builds on SPF and DKIM, providing a method to set policy and to give reporting of failures. For more information please see [dmarc.org](#).

This host does not have a DMARC record.

Web Trackers

Web Trackers are third-party resources loaded onto a webpage. Trackable resources include social sharing widgets, javascript files, and images. These trackers can be used to monitor individual user behaviour across the web. Data derived from these trackers are primarily used for advertising or analytics purposes.

No known trackers were identified.

Site Technology

Fetchd on 17th June 2019

Cloud & PaaS

Cloud computing is the use of computing resources (hardware and software) that are delivered as a service over a network (typically the Internet). Platform as a service (PaaS) is a category of cloud computing services that provide a computing platform and a solution stack as a service.

Technology	Description	Popular sites using this technology
Amazon Web Services - EC2 	Cloud computing service (Elastic Compute Cloud)	www.espnrcricinfo.com , www.ecosia.org , r.srvtrck.com

Server-Side

Includes all the main technologies that Netcraft detects as running on the server such as PHP.

Technology	Description	Popular sites using this technology
SSL 	A cryptographic protocol providing communication security over the Internet	kayakoreport.hostasaurus.com

Client-Side

Includes all the main technologies that run on the browser (such as JavaScript and Adobe Flash).

Technology	Description	Popular sites using this technology
------------	-------------	-------------------------------------

Technology	Description	Popular sites using this technology
JavaScript 	Widely-supported programming language commonly used to power client-side dynamic content on websites	www.google.com , vdms-ssl.cedexis-test.com , docs.microsoft.com

Client-Side Scripting Frameworks

Frameworks or libraries allow for easier development of applications by providing an Application Program Interface (API) or a methodology to follow whilst developing.

Technology	Description	Popular sites using this technology
AJAX	<i>No description</i>	www.walmart.com , www.capitalone.com , www.icloud.com
Bootstrap Javascript Library	<i>No description</i>	www.nicehash.com , www.asus.com , www.ansa.it

Mobile Technologies

Mobile technology is the technology used for hand held mobile devices.

Technology	Description	Popular sites using this technology
Click to call 	Markup language syntax intended for devices that can place calls (e.g. phones, VoIP, etc.)	www.cloudflare.com , www.labanquepostale.fr , www.redfin.com

Character Encoding

A character encoding system consists of a code that pairs each character from a given repertoire with something else such as a bit pattern, sequence of natural numbers, octets, or electrical pulses in order to facilitate the transmission of data (generally numbers or text) through telecommunication networks or for data storage.

Technology	Description	Popular sites using this technology
UTF8 	UCS Transformation Format 8 bit	gmail.com

HTTP Compression

HTTP compression is a capability that can be built into web servers and web clients to make better use of available bandwidth, and provide greater transmission speeds between both.

Technology	Description	Popular sites using this technology
Gzip Content Encoding 	Gzip HTTP Compression protocol	www.amazon.it , www.expedia.com , www.amazon.fr

Web Browser Targeting

Web browser targeting enables software applications to make use of specific functions of the browser as well as optimizing the application for specific browser versions.

Technology	Description	Popular sites using this technology
Document Compatibility Mode 	A meta-tag used in Internet Explorer 8 to enable compatibility mode	www.coinbase.com , outlook.live.com , yandex.ru
X-Content-Type-Options 	Browser MIME type sniffing is disabled	www.bitmex.com , www.facebook.com , www.googleadservices.com

Technology	Description	Popular sites using this technology
X-Frame-Options Deny 	Prevents the web page being embedded in a frame	www.tumblr.com , www.virustotal.com , mail.protonmail.com
X-XSS-Protection Reporting 	Cross-site scripting attempts are reported	www.twitter.com , www.netflix.com , accounts.shopify.com
Strict Transport Security 	Web security policy mechanism whereby a web server declares that complying user agents are to interact with it using only secure HTTP connections	secure-assets.rubiconproject.com , outlook.office365.com , accounts.google.com
X-XSS-Protection Block 	Block pages on which cross-site scripting is detected	lastpass.com , login.salesforce.com , paragon-na.amazon.com

Doctype

A Document Type Declaration, or DOCTYPE, is an instruction that associates a particular SGML or XML document (for example, a webpage) with a Document Type Definition (DTD).

Technology	Description	Popular sites using this technology
HTML5 	Latest revision of the HTML standard, the main markup language on the web	dtm.advertising.com

HTML 5

HTML5 is a markup language for structuring and presenting content for the World Wide Web and a core technology of the Internet. It is the fifth revision of the HTML standard.

Technology	Description	Popular sites using this technology
Viewport meta tag	HTML5 tag usually used for mobile optimization	discordapp.com

CSS Usage

Cascading Style Sheets (CSS) is a style sheet language used for describing the presentation semantics (the look and formatting) of a document written in a markup language (such as XHTML).

Technology	Description	Popular sites using this technology
External 	Styles defined within an external CSS file	www.msn.com , www.amazon.co.uk , www.linkedin.com
