SSL/TLS

SSLv3/POODLE	This site does not support the SSL version 3 protocol. More information about SSL version 3 and the POODLE vulnerability.
Heartbleed	The site did not offer the Heartbeat TLS extension prior to the Heartbleed disclosure, and so was not exploitable. This test does not exploit the Heartbleed vulnerability but uses information from conventional HTTPS requests. More information about Heartbleed detection.

Sender Policy Framework

A host's Sender Policy Framework (SPF) describes who can send mail on its behalf. This is done by publishing an SPF record containing a series of rules. Each rule consists of a qualifier followed by a specification of which domains to apply this qualifier to. For more information please see openspf.org.

Warning: It appears that this host does not have an SPF record. Setting up an SPF record helps prevent the delivery of forged emails from your domain.

DMARC

DMARC (Domain-based Message Authentication, Reporting and Conformance) is a mechanism for domain owners to indicate how mail purporting to originate from their domain should be authenticated. It builds on SPF and DKIM, providing a method to set policy and to give reporting of failures. For more information please see dmarc.org.

This host does not have a DMARC record.

Web Trackers

Web Trackers are third-party resources loaded onto a webpage. Trackable resources include social sharing widgets, javascript files, and images. These trackers can be used to monitor individual user behaviour across the web. Data derived from these trackers are primarily used for advertising or analytics purposes.

5 known trackers were identified.

Site Technology

Fetched on 16th June 2019

Cloud & PaaS

Cloud computing is the use of computing resources (hardware and software) that are delivered as a service over a network (typically the Internet). Platform as a service (PaaS) is a category of cloud computing services that provide a computing platform and a solution stack as a service.

Technology	Description	Popular sites using this technology
Amazon Web Services - CloudFront 🔗	Amazon Content Delivery Network	amazon.com, gfycat.com, smile.amazon.com

Server-Side

Includes all the main technologies that Netcraft detects as running on the server such as PHP.

Technology	Description	Popular sites using this technology
SSL 🔗	A cryptographic protocol providing communication security over the Internet	kayakoreport.hostasaurus.com
Tengine Web Server 🔗	*No description*	www.aliexpress.com, www.taobao.com, umlazada.alibaba.com

Client-Side

Includes all the main technologies that run on the browser (such as JavaScript and Adobe Flash).

Technology	Description	Popular sites using this technology
Local Storage	*No description*	www.hbg.com, www.digikala.com, www.icloud.com
JavaScript 🔗	Widely-supported programming language commonly used to power client-side dynamic content on websites	vdms-ssl.cedexis-test.com
Client Pull	*No description*	www.lefigaro.fr, www.sdna.gr, www.boursorama.com

Client-Side Scripting Frameworks

Frameworks or libraries allow for easier development of applications by providing an Application Program Interface (API) or a methodology to follow whilst developing.

Technology	Description	Popular sites using this technology
Google Hosted Libraries 🔗	Google API to retrieve JavaScript libraries	www.w3schools.com, www.bankofamerica.com, www.google.com

Advertising Networks

An online advertising network or ad network is a company that connects advertisers to web sites that want to host advertisements.

Technology	Description	Popular sites using this technology
Google AdSense 🔗	Google's service offering contextual advertising solution to web publishers	www.express.co.uk, www.majorgeeks.com, www.dasgelbeforum.net

Content Delivery Network

A content delivery network or content distribution network (CDN) is a large distributed system of servers deployed in multiple data centers in the Internet. The goal of a CDN is to serve content to end-users with high availability and high performance.

Technology	Description	Popular sites using this technology
Cloudfront	*No description*	www.binance.com, www.amazon.co.uk, www.primevideo.com

Search

A web search engine is a software that is designed to search for information on the World Wide Web or on a specific site.

Technology	Description	Popular sites using this technology
Custom Search Engine 🔗	Google Custom Search Engine	www.yandex.ru, www.zhihu.com, www.researchgate.net

Web Stats

Web analytics is the measurement, collection, analysis and reporting of internet data for purposes of understanding and optimizing web usage.

Technology	Description	Popular sites using this technology
Google Webmaster Tools 🔗	Set of tools allowing webmasters to check indexing status and optimize visibility of their websites on Google	www.cisco.com, www.amazon.in, www.walmart.com

Character Encoding

A character encoding system consists of a code that pairs each character from a given repertoire with something else such as a bit pattern, sequence of natural numbers, octets, or electrical pulses in order to facilitate the transmission of data (generally numbers or text) through telecommunication networks or for data storage.

Technology	Description	Popular sites using this technology
UTF8 🔗	UCS Transformation Format 8 bit	gmail.com

Web Browser Targeting

Web browser targeting enables software applications to make use of specific functions of the browser as well as optimizing the application for specific browser versions.

Technology	Description	Popular sites using this technology
Strict Transport Security 🔗	Web security policy mechanism whereby a web server declares that complying user agents are to interact with it using only secure HTTP connections	www.facebook.com, accounts.google.com, docs.microsoft.com
Strict-Transport-Security (including subdomains)	*No description*	www.coinbase.com, outlook.office365.com, login.salesforce.com
Document Compatibility Mode 🔗	A meta-tag used in Internet Explorer 8 to enable compatibility mode	lastpass.com, outlook.live.com, yandex.ru
X-Content-Type-Options 🔗	Browser MIME type sniffing is disabled	www.googleadservices.com, secure-assets.rubiconproject.com, dtm.advertising.com
X-XSS-Protection Block 🔗	Block pages on which cross-site scripting is detected	paragon-na.amazon.com, discordapp.com

Doctype

A Document Type Declaration, or DOCTYPE, is an instruction that associates a particular SGML or XML document (for example, a webpage) with a Document Type Definition (DTD).

Technology	Description	Popular sites using this technology
HTML5 ⧉	Latest revision of the HTML standard, the main markup language on the web	

HTML 5

HTML5 is a markup language for structuring and presenting content for the World Wide Web and a core technology of the Internet. It is the fifth revision of the HTML standard.

Technology	Description	Popular sites using this technology
Viewport meta tag	HTML5 tag usually used for mobile optimization	

CSS Usage

Cascading Style Sheets (CSS) is a style sheet language used for describing the presentation semantics (the look and formatting) of a document written in a markup language (such as XHTML).

Technology	Description	Popular sites using this technology
External ⧉	Styles defined within an external CSS file	www.linkedin.com, www.bitmex.com, www.msn.com
